### Professional Summary

Machine Learning Engineer with 6 years deploying ML models to production. Expert in deep learning, computer vision, and MLOps. Published research in NeurIPS and ICML conferences.

### Professional Experience

#### Senior ML Engineer | AI Innovations Lab

Boston, MA | 2020 - Present

- Deployed computer vision models processing 1M+ images daily
- Built MLOps pipeline with Kubeflow and MLflow
- Reduced model inference time by 70%
- Led research on transformer architectures

#### ML Engineer | DataMind Corp

Cambridge, MA | 2018 - 2020

- Developed NLP models for text classification
- Implemented A/B testing for model deployments
- Created data pipelines with Apache Airflow

### Education

#### PhD in Machine Learning

MIT | 2018 | GPA: 3.9/4.0

### Technical Skills

<b>ML Frameworks:</b>	PyTorch, TensorFlow, JAX, Scikit-learn
<b>MLOps:</b>	MLflow, Kubeflow, Weights & Biases, DVC
<b>Languages:</b>	Python, C++, CUDA, SQL
<b>Cloud ML:</b>	SageMaker, Vertex AI, Azure ML

### Languages

English (Native)

## Certifications

- TensorFlow Developer Certificate
