Professional Summary

AI Research Scientist with 7 years advancing state-of-the-art in NLP and computer vision. Published 15+ papers in top conferences. Led research resulting in 3 patents and product improvements.

Professional Experience

Principal Research Scientist | AI Research Institute
Cambridge, MA | 2020 - Present
- Led research on large language models
- Published papers at NeurIPS, ICML, and ACL
- Mentored PhD students and interns
- Collaborated with product teams on AI integration

Research Scientist | DeepTech Labs
Boston, MA | 2017 - 2020
- Developed novel architectures for vision transformers
- Improved SOTA on multiple benchmarks
- Presented research at conferences

Education

PhD in Artificial Intelligence
MIT | 2017 | GPA: 4.0/4.0

Technical Skills

Research:	Deep Learning, NLP, Computer Vision, Reinforcement Learning
Frameworks:	PyTorch, JAX, TensorFlow, Hugging Face
Languages:	Python, C++, CUDA, Julia
Tools:	LaTeX, Git, Docker, Weights & Biases

Languages

English (Native) | French (Professional)

Certifications

- Deep Learning Specialization
